

# Imagine Road Map to Confident Communication

*A progression of the foundational language skills developed in each level of Imagine*

*Imagine* develops English language skills with a variety of opportunities for students to learn and communicate in English. A **systematic language progression** from Starter to Level 6 teaches learners the **foundational skills** needed to **speak English with confidence in real-world settings**.

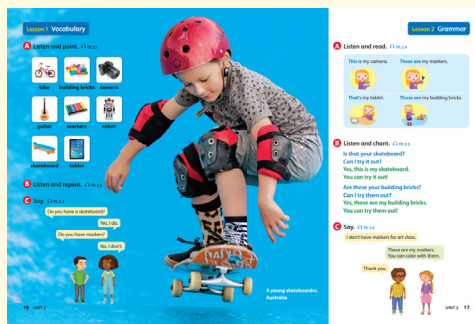

The series **prepares learners with the language skills needed to thrive**, with age-appropriate content that introduces them to the world, helps them connect to topics, and gets them **thinking and speaking in English**.

*Imagine* **sets learners up for success** by helping them communicate confidently, express themselves and their opinions, and navigate everyday situations in English.

## Each level of *Imagine* develops the following:

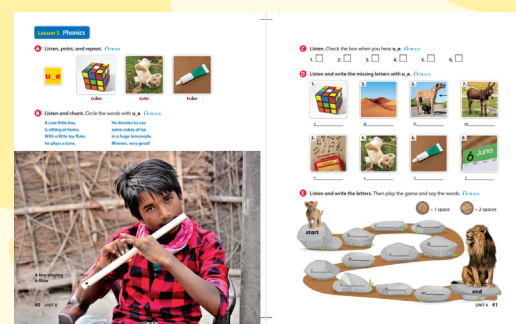

### Foundational Grammar & Vocabulary

Songs, chants, and games practice concepts and essential language in a playful and meaningful way. In Levels Starter – 4, engaging phonics lessons help young learners connect English letters and their sounds to become independent readers.

### Communication Skills

Creative tasks enhance collaboration and communication. Conversation models guide learners through speaking opportunities and support language personalization in a variety of contexts.

### The Real World - The Whole World

Amazing photography, video, and real-world texts spark children's curiosity and lead them to learn about the world through topics that are fun, relatable, and age-appropriate.

### Contextualized Reading & Writing

Carefully leveled reading texts and structured lessons present important vocabulary in context, introduce students to common types of everyday writing, and build reading confidence, helping learners to develop language authentically.

# Language Learning Development at Each Level of **Imagine**

## **Starter**

- Familiarity with the key words and sounds of English
- Ability to distinguish and form the letters of the alphabet

## **Level 1**

- Age-appropriate topics encourage communication
- Understanding of essential vocabulary and language structures in a fun and meaningful way

## **Level 2**

- Communication skills built through carefully scaffolded listening and speaking activities
- Language repertoire expanded to confidently engage with both written and spoken English

## **Level 3**

- Relatable topics spark student engagement and curiosity
- New language structures broaden students' ability to communicate in different situations

## **Level 4**

- Autonomy in the use of language to interact in different communicative contexts
- Ability to read, watch, and understand a diverse collection of reading texts and videos

## **Level 5**

- Further development of communication and literacy skills by a variety of reading texts and practical writing forms
- Ability to read and produce language with increasing autonomy and fluency

## **Level 6**

- Development of more complex language structures
- Ability to use English to confidently interact with, understand, and retain information as well as produce texts in different genres

**IT'S AS EASY AS**

**A B C!**
